Amarine The Mozia, BSD City

I'm someone who enjoys understanding how people think and finding simple ways to make their experiences better. I've had the chance to work closely with others in roles like being a facilitator and working on creative projects, and those experiences taught me how meaningful good communication and thoughtful problem solving can be. I'm always eager to learn, collaborate, and explore creative ways to solve problems.

Education Level

Universitas Bina Nusantara - Tangerang, Banten <i>Computer Science, 3.83/4.00</i>	Sep 2023 - Sep 2027 (Expected)
---	--------------------------------

Work Experience

BINA NUSANTARA Group <i>Front-End Developer Intern</i> BINA NUSANTARA Group is a leading Indonesian education group providing diverse educational services and human resource development initiatives through its various institutions and business units. - Built a responsive web application for media recording using React, Vite, and Tailwind CSS. - Integrated browser web APIs (such as MediaRecorder) to capture, manage, and preview audio-visual inputs directly from the client side. - Developed interactive UI components, including synchronized countdown timers, real-time audio visualizers, and scheduled pop-ups. - Managed complex component states and lifecycles using React Hooks to ensure smooth UI performance and prevent unnecessary re-renders during active sessions.	Feb 2026 - Dec 2026
Yari Club - London, United Kingdom (Remote) <i>Part-Time POS & Inventory</i> Yari Club is a modern yakitori restaurant in London that combines traditional Japanese grilled skewers with automated robotic cooking technology. - Organized, created, and deleted items (ingredients and menu), while maintaining accurate cost pricing. - Linked menu items with ingredients and recipes, ensuring proper measurements and costing. - Input purchase orders and maintained accurate stock records. - Conducted monthly stock counts on the 1st of each month and reminded the store manager for end-of-month stock takes. - Generated and reviewed monthly loss and wastage data, exporting reports into spreadsheets. - Created and updated promotional items in the till system, ensuring smooth setup and deployment at the stores.	Apr 2025 - Present

Organisational Experience

Excellence Program B28 <i>Freshman Partner</i> Accompanied and facilitated new students (freshmen) through BINUS University's Excellence Program (EESE), a series of 20 sessions across two semesters designed to support freshmen in adapting to university life. - Planned and managed meeting schedules in coordination with freshmen. - Led discussions and delivered university-provided materials on essential topics, including time management, academic preparation, relationship building, and other aspects of student life. - Built strong communication and created a supportive environment to help freshmen feel more confident in their transition to campus life.	Sep 2024 - Jun 2025
Teach for Indonesia Student Community (TFISC) <i>Activist of Partnership Division</i> - Developed creative ideas and recorded TikTok content to promote the organization and its initiatives. - Contributed to building a positive image of the organization through engaging and informative content.	Mar 2024 - Mar 2025
Welcoming Party TFISC 2024 <i>Staff of Fundraising Division</i> - Broadcasted promotional messages to event teams, ensuring scheduled Instagram Stories for pre-order campaigns were posted on time. - Monitored posting schedules to maximize visibility and engagement. - Handled the distribution of pre-order items to buyers accurately and on time.	Sep 2024 - Oct 2024

- Cross-checked product quantities with order data to ensure accuracy.
